a
sin**

the laid back town of raglan is home to three of the world's best point breaks. old surfers joke that you should only catch two waves per day because if you catch a third, you may starve. raglan was traditionally a spiritual place where fatigued moari warriors would come to heal from battle. now it is a haven for surfers who crave long rides. it is said that during perfect conditions, the waves from the three bays join together to form the longest ride in the world.
